

## POST-GRANT REPORT

The Connie Burwell White and William W. White Foundation is pleased to have made a grant to your organization. Prior to reapplying for funding, we require a completed Grant Report to detail the impact of our funding on the work you are trying to accomplish.

We realize that there can be setbacks along the way. We encourage you to be candid about any challenges you encountered to help us understand the unique situations each grantee may face.

In your grant report, we ask that you provide:

- Organization Name
- Project Name (if applicable)
- Grant Report Contact Information (Name, Email, Phone)
- Report submission date

Please try to address the following questions:

- I. What outcomes have you been able to achieve with the help of this grant? If applicable, please address your progress toward the desired outcomes stated in your grant proposal.
- II. Did your project change from your initial plan? If so, how?
- III. What were the key components to your success?
- IV. What were the biggest stumbling blocks?
- V. How did you use the funds from the White Foundation grant? Please compare to your original project budget or operating request and explain any deviations.
- VI. If this project continues next year, what would you do differently if you have the ability? Are there any obstacles to making these adjustments?

Please save the completed report as a PDF file and email to [reports@whitefoundationdenver.org](mailto:reports@whitefoundationdenver.org). A copy of your report should also be included with your next grant application (if applicable).
